

## PAL Aluminum Anchoring Clamps For LV-ABC Lines With Insulated

The clamps are designed to anchor LV-ABC lines with insulated neutral messenger. The clamp consists of an aluminum alloy open body with two self-adjusting insulating plastic wedges ensuring the clamping of the neutral messenger without damaging cable insulation. The unloosable stainless steel flexible bail equipped with an movable insulating wear-resistant saddle and two sleeves compressed on the ends to be locked on the clamp body. The saddle can allow installations of up to 3 clamps on a bracket. The clamp and the bracket are available separately and together as assembly. Maximum line deviation angles of 50° for single and 100° for double anchoring. And it's tool free installation and no losable parts. The universal fixing of bracket by 2 bolts or stainless steel straps of 20X0.7mm.

Neutral messenger Cross Section(mm <sup>2</sup> )	Product Description	Breaking load	Recommended working load
25-35	PAL35-1000	10,0 kN	3,0 kN
50-70	PAL50-1500	15,0 kN	5,0 kN
54-70	PAL70-2000	19.0KN	7.0KN
70-95	PAL95-2000	19.0KN	7.0KN
